About

Full-stack creator and AI tool builder from Bay, Laguna, with 5+ years in digital content production, social media management, and video editing. Builds indie games (Godot 4), ships AI-powered web and mobile apps (Next.js, Flutter, FastAPI), designs and deploys static sites for small businesses, and manages Meta Ads support workflows. Applies AI tools (Claude, ChatGPT) to streamline content, development, and campaign operations. Currently a fourth-year BS Agricultural and Applied Economics student at UPLB working on a thesis about land conversion and rice productivity.

Based in Bay, Laguna and working remotely with teams across the Philippines and beyond — shipping across game development, web, mobile, and AI.

Services

Data & bookkeeping support

Excel cleanup, monthly bookkeeping, custom reports.

WHAT'S INCLUDED

Chart of accounts and ledger setup from receipts or messy sheets
Monthly close, payables tracking, payroll reconciliation
Custom reports (P&L, cash position, owner-readable summaries)

Starts at PHP 5,000 / month

Website + SEO

Astro/Next sites, on-page SEO, Netlify deploys.

WHAT'S INCLUDED

Design, build, and deploy on Astro or Next.js
On-page SEO: titles, meta, schema, sitemaps
Netlify hosting + form handling and analytics wiring

Starts at PHP 25,000 / project

AI chatbot integration

Botpress + Claude or GPT integrations, training data, handover docs.

WHAT'S INCLUDED

Botpress flow with structured nodes for predictable answers
Claude or GPT for open-ended turns; clean human handoff
Training data, deploy, and a written handover doc your team can use

Starts at PHP 18,000 / project

How we'll work together

01

Discover

A short call to learn the business and the problem.

02

Scope

A one-page brief: deliverable, timeline, price, what is out of scope.

03

Build

Weekly check-ins with working drafts you can react to.

04

Hand off

Docs, training, and a 30-day support window after launch.

Featured work

Full case-study cards for the projects I lead with.

Oka's Farm Bookkeeping	Farm accountant 2024	ARCHIVED	ExcelQuickBooks-style ledgers 14 months of agri-business accounting. Records, payables, payroll.

Sample & local builds

Concept landing pages and concept portfolio PDFs shipped alongside the live work.

Willow Creek Farmstay

Concept landing page · 2026 · **LIVE**

HTML CSS JavaScript

A fictional farm stay inquiry page with a full booking lead-capture flow.

A mobile-first static landing page for a farm stay guest inquiry flow. Demonstrates how a rural accommodation host can replace scattered inquiries across Airbnb, Instagram, Facebook, and email with one clear page, form, and lead-capture system.

ClearPath Lawn Care

Concept landing page · 2026 · **LIVE**

HTML CSS JavaScript

A fictional lawn care quote-request page for collecting complete service leads.

A mobile-first static landing page for a local lawn care quote request flow. Demonstrates how a lawn care or home service owner can collect complete, structured quote requests — replacing vague DMs and phone calls with a form that captures address, yard size, service type, and frequency upfront.

Harvest Table Kitchen

Concept landing page · 2026 · **LIVE**

HTML CSS JavaScript

A fictional preorder and catering inquiry page for small food businesses.

A mobile-first static landing page for a small food business preorder and catering inquiry flow. Demonstrates how a bakery, catering company, meal prep service, or food truck can replace scattered DMs, comments, and phone calls with one structured page and form.

AI Book Content Portfolio

AI-assisted content sample · 2026 · **LIVE**

AI Editing Content Strategy PDF

A PDF portfolio of AI-assisted book content samples and editorial structure.

AI YouTube Thumbnail Design

AI-assisted design sample · 2026 · **LIVE**

AI Design

YouTube

PDF

A PDF portfolio of AI-assisted YouTube thumbnail concepts and visual direction.
